

We pave your way.

The private company of Gebrüder Stolz was founded in the year 1875 and for decades it has been a strong partner and a reliable employer in southern Germany.

A tradition which has lasted for more than 100 years and which has always focussed on the confidence of our clients and business partners forms the basis of our success. This motivates us to consequently develop and increase our know-how.

The professional experience of our team combined with state of the art technology, clear structures and customer-oriented flexibility allow us to handle the rapid changes and challenges of the present.

This is how we manage to carry out projects economically and to present our clients high-quality results as quickly as possible.

The Gebrüder Stolz GmbH & CO. KG attains an annual volume of sales of approx. 40 million euro and employs more than 250 people.
